Re: Planning Guide Recommendation

Peter Ashworth and his colleagues at Planning Guide have worked very closely with West Lindsey District Council to produce a new guide covering the local area.

The Council is very happy with the final version of the guidance and welcomed the opportunity to tailor the text to ensure it mirrored the way the planning services are provided in our local area. The final product is a very professionally presented guide that I am sure will be very useful to local residents, businesses and developers.

Throughout the process we have always had a named contact available at Planning Guide who has responded to our enquiries immediately. The Council can recommend Planning Guide to other local planning authorities and have been very satisfied with the service received.

Regards,

Oliver Fytche-Taylor
Planning & Development Manager
West Lindsey District Council
