Peter Ashworth
Planning Guide
Peter@ten-media.co.uk

Dear Peter

Thank you very much with all your help in producing the Liverpool City Council Planning Guide.

The Council is very happy with the final version of the guidance, including the online version with active links, and welcomes the opportunity to tailor the text to ensure it mirrors the way the planning services are provided in our local area. The final product is a very professionally presented guide that I am sure will be very useful to local residents, businesses and developers. I am especially pleased to see that all the adverts are genuinely local businesses.

Throughout the process we have always had a named contact available at Planning Guide who has responded to our enquiries immediately. The Council can recommend Planning Guide to other local planning authorities and have been very satisfied with the service received.

I would certainly recommend that other local authorities embrace having a Planning Guide for their areas

Yours sincerely

Pete Flynn
